No shots. No drilling. No adhesives. You can even eat while wearing the [Snap-On Smile®](#) appliance. Patients looking for a non-invasive, reversible, affordable approach to restorative and cosmetic dentistry are excellent candidates for Snap-On Smile. It's an easy, quick and affordable solution for patients who want to feel better, look better, and function better. Patients using Snap-On Smile report an immediate boost to confidence and self esteem. Most are impressed with the natural look and feel of Snap-On Smile and are grateful for the brief time investment - about three weeks - to achieve such life changing results.

Snap-On Smile was invented by a dentist who realized that not everyone can afford many thousands of dollars to get a Hollywood smile make-over. Snap-on Smile's unique, proprietary formula of hi-tech dental resin make it very thin yet extremely strong. It fits right over your own teeth to give you a beautiful, natural looking smile-even if you have stains, chips, gaps or missing teeth. And for many people, Snap-On Smile can be life changing. It gives back the confidence to smile. Thousands of people worldwide have already experienced the unique benefits of Snap-On Smile.

At your first visit the Snap-On Smile we will examine your teeth, decide if you are a candidate for Snap-on Smile and, if so, discuss whether you wish to have Snap-On Smile for your upper or lower arch. The dentist will then take an impression of your teeth. Don't worry... there is no pain, no shots and no drilling involved! Since each Snap-On Smile is custom made, the dentist will send your impression to the

studio to have yours made just for you. At your second visit approximately 3 weeks later, we will fit your Snap-On Smile and make any minor adjustments needed. You'll then be shown how to pop your new smile in and out, plus how to keep it looking good.

Remember, you can eat with it, drink with it, and wear it all day every day. (Just remove it when you sleep). A fraction of the price of things like veneers, crowns & bridges. Snap-On Smile is the only removable, affordable alternative to traditional smile make-over solutions.

Arrowhead Lakes Dentistry will continue its quest to provide the finest dental care as comfortable as possible. Information in this article is provided by Den-Mat Corporation. If you have any further questions about Snap-On Smile or any other dental concerns, please visit our [website](#) or give our office a call at 623-362-9616. We would love to answer any questions.

We wish you good health,  
Sincerely,

Ronald Shelley DMD
